RIDE FOR WILD
EXPEDITION

About Us:

We have a team of professionals consuming the knowledge of Forest Biodiversity and organizing Trekking and Hiking camps with vast experience in the field of Wild Life in Gujarat as well as in India.

We are committed towards Conservation and Securing Wild Life species, protecting our Water Resources and recycling our Waste because awareness of the Wild Life Conservation is core of all the demands of Mother Earth.

We believe that this is a great way to bind our connection with the Nature. It is the Journey we chosen for ourselves. If you think you contain that passion within yourself, whether you already an experienced tourist or just beginner, come and become a member of our RIDE FOR WILD family.
